Wall Clock Quantum 6206ARC/4

Description

- 420mm white plastic cased wall clock with shatterproof front lens
- Dimensions 420mm diameter x 55mm deep
- Weight 1190g
- Fitted with a radio controlled battery movement for use in the U.K. and Eire only
- 4 x LR6 size battery pack for up to **5 years operation**
- supplied with 4 x LR6 alkaline batteries
- White dial with 12-hour markings and minute track printed in black
- Viewing distance up to 50 metres
- 2 Year Clock Guarantee

Care and maintenance

We advise the clock to be wiped down with a clean slightly damp cloth at least with every summer/winter time change and that a battery change is factored in on one of those occasions.
