# E.A.COMBS LIMITED

TIMING SOLUTIONS

**A CLOCK SYSTEM THAT IS  
100% ACCURATE AND  
AUTOMATICALLY ADJUSTS  
FOR THE SUMMER/WINTER  
TIME CHANGE ACROSS YOUR  
BUILDING.**

Offering the following :

- Digital and Analogue options
- Mains or battery powered
- Up to 5 year battery life
- Complete synchronicity
- Improves punctuality

The Airtime 868 GPS clock system avoids the need for any hard wiring by sending a time code signal from the master clock to compatible clocks around the building within range.

- Simple wireless installation which results in significant cost saving
- Flexibility with clock locations
- Range approx 250meters (can be extended with repeater units)
- Unlimited number of clocks
