

SoundLAN-PoE.AP6 Technical Data Sheet

SoundLAN-PoE.AP6 - Over IP 6W amplified loudspeaker with PoE power supply for indoor use for mounting against a wall or ceiling, ideal both for background music and for speech. It is made of white self-extinguishing ABS and has a metal grille on the front.

It allows you to store directly on board, 4 messages with a total duration of 2 minutes that can be played on remote control transmitted through the data network. It uses a Peer-To-Peer protocol that does not require servers or other central units, guaranteeing maximum system reliability

Technical Data

Number of loudspeakers	1
Mounting	Wall or ceiling, with screws
Rated power output	6 W
Adjustable power	By software setting
Audio source by ETHERNET	Standard IEE802.3af
Protocol	Peer-To-Peer without server
Efficiency (1W/1m)	88dB
Acoustic pressure (Pnom/1m)	96dB
Horizontal dispersion angle @ 4kHz	150*
Net Weight	0.75Kg
